TP2HTML

1. Create image map on image "USAMap.png" provided. We are interested in only 5 states: Colorado, Kansas, New Mexico, Nevada and Wyoming. For each of these states, you will need to create a link to the address: www.name_state.com

2. By using the tags learned in class, create a simple table as the image below:

Table and Image

• List Item 1 • List Item 2 • List Item 3	• List Item 4 • List Item 5 • List Item 6
Avoid losing floppy disks with important school…	

Table 1

Note: color and image are not important, you can choose as prefer.

3. Choose an image and display it using image tag provided in HTML. Then display the image on simple HTML page. The displayed image should be 2 times smaller than the original one. Give the caption to the image as it should be and create 2pixels border. When you click on image I will link to another file, which will display the 100% image size.

4. Create the time table as figure below:

Time Table

	Lundi	Mardi	Mercredi	Jeudi	Vendredi
8-9	Physique	Physique	Math	Physique	Math
9-10					
8-9	Anglais	Math	TIPE	Math	Physique
10-11					
11-12					
12-13	Planche				
13-14	TIPE	Math	Phys ou SI	Planche	TIPE
14-15					
15-16	TIPE	TIPE	SI ou Phys		TIPE
16-17					
17-18	Colle
